PLANTING GUIDE FOR 1948

FRUIT TREE NURSERY

CARLTON NURSERY COMPANY

EXTENSIVE GROWERS OF NURSERY STOCK

FOREST GROVE, OREGON

OVER HALF A CENTURY OF DEPENDABLE SERVICE

WESTERN PRIDE PEACH

This wonderful Peach is of our own origination, being obtained by us from a seedling Peach grown at Ontario, Calif. We have been growing this Peach for the past fourteen years under the name of Improved Rochester. Not until six years ago did we realize that it was of outstanding quality and since that time have been putting it through all the tests required of a truly good Peach. It has proven a wonderful canning and shipping variety and we highly recommend it for both home and commercial planting. We feel that this Peach is deserving of a new name, resembling Rochester only in ripening season. Fruit is of large size, highly colored, yellow with generous portions tinged deep red. Flesh golden yellow, firm, deliciously flavored, entirely freestone. A consistent producer, bearing when other Peaches fail. Ripens following Rochester. One of the earliest good canning Peaches, practically fuzzless, excellent shipper. Write for prices 50 or more trees.

Each—5-6' \$2.00; 4-5' \$1.75; 3-4' \$1.50.

The Broadest Guarantee Ever Made

We guarantee every plant, tree, or shrub that we ship out to be free from disease, true-to-name, and to arrive in perfect growing condition. If for any reason whatsoever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money. Our policy of "Every Customer a Satisfied Customer" means all that it implies, and we are here to give ABSOLUTE SATISFACTION. For FREE REPLACEMENT OF TREES WHICH FAIL TO GROW . . . Read letter on first insert page.

Information

PLANTING SEASON: November 1st through April.

TIME TO ORDER: Order now while our stock is complete and you will receive the finest of selections.

SUBSTITUTION: Please state when ordering an assortment whether substitution will be allowed, as we feel at liberty, when no instructions accompany the order, to use similar or better varieties when we are out of the kinds named. Check the square Yes or No on the order blank.

TERMS OF PAYMENT: Customers will please forward cash with the order. If your order is over \$5.00 and is to be sent C.O.D., send 25% cash with the order.

Bud Selection

SUCCESS IN FRUIT AND NUT TREE PLANTING depends solely on the selection of BUDS from trees producing quality as well as quantity and to have been budded on the proper variety of Root systems adaptable to various soil conditions. WE ACCEPT THIS RESPONSIBILITY.

OUR STOCK is grown by cultivation. The deep, rich sandy loam of our VALLEY NURSERIES at FOREST GROVE enables us to supply strong, hardy, vigorous trees, with highly developed Root Systems.

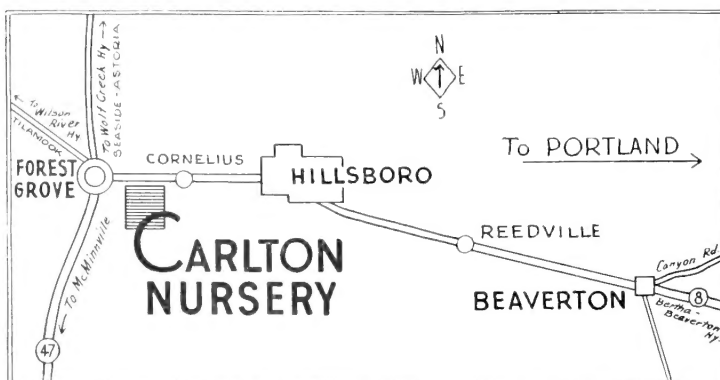

We have thousands of satisfied customers and solicit inquiries from new customers and COMMERCIAL PLANTERS. We assure you that your order will receive our careful personal service and attention. Submit your order today.

Customers

You can plant our stock with safety. Order today. We accept the obligation of guiding Home and Commercial Planters.

PARSON SWEET ITALIAN PRUNE

THE NEW PARSON SWEET ITALIAN PRUNE

(Patent Applied for)

TESTED AND PROVEN

Order Early—Avoid Disappointment

NEW PARSON SWEET PRUNE

This new prune has been nurtured for several years under test conditions and has proven superior in many respects to other varieties. It is hardy against unfavorable weather conditions and bears at an early age. The fruit dries heavily without drip or run and remains the same for long periods of time. Although of remarkable sugar content, dried fruit does not whiten with sugar rising to the surface. Laboratory analysis rates Parson Sweet Prune with 50.7% sugar content, compared with 41.0% for other Italian prunes. Mild sweet flavor makes it a possibility for special holiday gift packs. Because of the high sugar content, additional sugar for cooking or canning is unnecessary.

Fruit is ready for picking 10 to 12 days ahead of the Italian. Heavy bearing quality is noteworthy, even on new branch growths. An outstanding prune, a good shipper.

Sold Only by CARLTON NURSERY CO.
5 to 6 feet No. 1 Trees.....\$2.50 each
4 to 5 feet No. 1 Trees.....\$2.00 each
NOTE—Commercial rates on application.

GIFT SUGGESTIONS

Let Your Christmas, Anniversary, and Birthday Gifts "Live"

One of the most appreciated gifts for your garden friend is a "Living Gift" of a Camellia, Rhododendron, Azalea, Rose, Tree, Shrub, Vine or Plant.

The QUICK-EASY way to solve all your GIFT PROBLEMS . . . but more important . . . THE MOST SATISFACTORY.

EASY FOR YOU—No bother of packing and shipping.

Just send us the following information:

1. Select your Gifts from our 40-page Catalog.
2. To whom is the Gift to be shipped? (and address).
3. Who is the Gift from? (signature for Gift Card).
4. The occasion? (Christmas, Birthday, etc.)
5. When do you wish Gift shipped? (Don't hesitate to order, even though conditions are not right for planting on the date of the occasion. We will be glad to send a Gift Certificate, advising that shipment will be made later.)

WE'LL DO ALL THE REST: Your Gift will be shipped prepaid* to destination, and we'll send an appropriate card (Christmas, Birthday, etc.), signing the "Giver's" name and advising when and how the "Gift" is being shipped.

*Add 15% of purchase price to Gifts to be shipped East of the Rocky Mountains.

GIFT SELECTION: Over 500 varieties to select from.

RED BARTLETT PEAR (Patent Applied For)

Postpaid Price:

No. 1 4-6 ft. (½" to ¾" Caliper).....\$2.00 each

Three Trees for \$5.00

The Red Bartlett pear, developed from a bud sport in the A. D. McKelvie orchard at Zillah, Washington. The quality, shape, and size of this new fruit is identical to that of the popular Bartlett, which has long been the favorite home and commercial canning pear. The new Red Bartlett has about 10% more sugar content than the regular Bartlett. The color is dark red at picking time and lightens to a beautiful cherry-red color after storage.

GIANT ELBERTA PEACH (Patent Applied For)

Postpaid Price:

No. 1 5-6 ft.....\$2.00 each 4-5 ft.....\$1.75 each

The Giant Elberta peach, developed from a seedling in an Elberta orchard. Hardy, fast growing, very prolific tree producing fruit at least one-third larger than the standard Elberta. Fruit is a deep yellow overlaid with brilliant red, perfectly freestone, flesh firm and finely textured. It ripens evenly on both sides at same time, and about 10 days earlier than the standard Elberta.

An Ideal Gift for Any Occasion

A Complete "Home Orchard" of Four Trees

Plant Only Four—COMBINATION FRUIT TREES—Harvest Nineteen Varieties of Fruit

Home owners and tree lovers will find a never ending source of interest in growing these "Combination" Fruit Trees. A single tree with three to five varieties of fruit, ripening over a long season, will produce fruit for every purpose. The "Combination" tree is very ornamental, too, with its display of contrasting colors, shapes and sizes of fruit and makes an ideal shade tree for the small yard.

OUR "Combination" fruit trees are especially grown on selected heavy, straight trees, which are root pruned to develop a well branched root system. Quality Supreme—well shaped, branched at the proper height, and good, husky trees.

We have many different combinations—too many to list all of them here. In ordering select the combination you prefer, and we will send the tree closest to your selection. (Not all varieties are grown successfully together, and therefore it may not be possible to give you the exact selection you might wish.)

COMBINATION CHERRY TREES

FOUR VARIETIES on One Tree, including Royal Anne, Bing, Lambert and a Pollenizer **\$5.00 each**

THREE VARIETIES on One Tree, including Royal Anne, a Pollenizer, and Either Lambert or Bing.....**\$4.50 each**
(Pollenizers used: Deacon and Black Tartarian)

COMBINATION APPLE TREES

FIVE VARIETIES on One Tree.....**\$5.50 each**

FOUR VARIETIES on One Tree.....**\$5.00 each**

THREE VARIETIES on One Tree.....**\$4.00 each**

(All Apple trees include Gravenstein, one additional early Apple, and two or three selected late varieties.)

GENUINE DWARF TREES

When fully grown, the maximum height of dwarf trees is not over 10 feet, and by proper pruning they can be kept down to six feet. The fruit, which is of true variety, is within reach of easy picking.

Please refer to Fruit Section for descriptions.

ESPALIER FRUIT TREES

Beautify your home with an "Orchard" growing on vines! Espalier Fruit Trees grow in artistic vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is similar to that produced from regular trees. These unique trees add a distinctive touch of beauty to any home or garden.

Espalier Fruit Trees are propagated from true dwarf roots, which limit their size and growth.

FRUIT TREE PRICES: All varieties, on pages 5 to 12, except as otherwise marked.

	Height	Caliper	Price
Extra large, select tree, branched top.....	5 to 6 ft.	5/8" to 3/4"	Each \$1.75
Large select tree, branched top.....	4 to 5 ft.	1/2" to 5/8"	Each 1.50
Medium size tree, partially branched top.....	3 to 4 ft.	3/8" to 1/2"	Each 1.25
Small (we do not recommend this size for home orchards)	2 to 3 ft.	1/4" to 3/8"	Each 1.00

(Write for Special Commercial Prices on 50 or More Trees of a Class)

We invite your comparison of our Prices, Grades, Quality.

The Fruit Trees described in this Catalog are all Two Year Nursery Grown—Strictly First Grade and Quality. Grade is determined by caliper, height may vary from that listed. For example: prune and plum trees often are 6 to 8 feet in height. There is a vast difference in trees sold on the market today. BE ASSURED OF THE BEST by ordering CARLTON TREES.

PEARS

The pear thrives over a wide range—being able to stand more summer heat than the apple. The French pear root also withstands heavy wet soils much better than most fruits. The popular Bartlett rules supreme as a summer pear, but some of our fall and winter varieties are even finer in quality and flavor, and all lover of fine pears should include some of these in their home gardens. Unlike most other fruits, the pear develops much better quality when ripened off the tree, and the fruit should be picked before it begins to soften.

Best Shipping Sorts: Bartlett, Bosc, Comice, Anjou, Winter Nelis. **Cannery Sort:** Bartlett.

SUMMER VARIETIES

BARTLETT—A well-known favorite for eating fresh or canning. Large size, buttery, juicy and high flavored. August to September. See colored illustration.

CLAPP'S FAVORITE—Large finely textured pear resembling Bartlett. Pale yellow color with brown dots, melting, buttery, juicy, delicately flavored. Ripens about two weeks ahead of Bartlett.

AUTUMN AND WINTER VARIETIES

BEURRE D'ANJOU—A fine pear; rather large; flesh yellowish white, rich and vinous flavored. Tree good grower and productive. October and November.

GOLDEN RUSSET (Bosc)—Large, deep yellow, russet colored and long neck. Half melting, juicy, delicious, with pleasant odor. Good shipper. September.

DOYENNE DU COMICE (Royal Riviera)—Skin rich yellow at maturity, often lightly shaded with crimson. Flesh white, fine grained and melting, sweet and rich. Very good. October to November.

GORHAM—Large size, golden yellow when ripe, resembles Bartlett, ripens about two weeks later; fine flavored and firm texture.

FLEMISH BEAUTY—Large fruit; pale yellow, becoming reddish brown at maturity on the sunny side. Flesh yellowish white and juicy. Excellent for canning. Late September.

WINTER NELIS—Tree hardy and thrifty. A delicious winter pear of medium size; flesh yellowish white, very juicy when ripe. One of the very finest for eating fresh. December to February.

WINTER BARTLETT—Fruit large, closely resembling the famous Bartlett in shape, flavor, and appearance but ripening considerably later.

BARTLETT PEAR

PROVEN OLD FAVORITES AND NEW

Our stock includes the best of the proven old favorites as well as the dependable newer varieties, covering a range of seasons and uses to meet all requirements.

The following profitable new varieties of merit should be planted by commercial planters desiring the best: Bright Red Rome, Solid Red Delicious, Yellow Delicious, Red Gravenstein, Red Spy, and Yellow Transparent. These are money makers. Order today.

APPLES

PRICES: Please refer to condensed price list, page 5.

Apples in this catalog are classified according to their seasons of maturity or use, such as "Summer", "Fall" and "Winter".

SUMMER VARIETIES

YELLOW TRANSPARENT—Earliest summer apple; always in demand for sauce or pies. Skin golden yellow; flesh white, fine grained, juicy, crisp, tender and sub-acid.

GRAVENSTEIN—An old-time favorite cooking apple in any form, especially fine for pies; crisp and juicy. Hardy and bears young.

RED JUNE—Always a favorite variety. Skin attractive red; flesh juicy, somewhat tart flavored. Hardy and productive.

RED GRAVENSTEIN—Bright red, juicy flesh, excellent flavor, good shipper and desirable as a commercial sort.

WHITE ASTRACHAN—An early, large greenish-white apple. Flesh highly acid, making it one of the best cooking apples.

LODI—Similar to Yellow Transparent, but a stronger growing tree, and a regular producer.

FALL VARIETIES

KING—A large waxy yellow-green apple with red striping. Very good keeper, excellent dessert and baking apple which is also in demand by the market. Late September.

GRIMES GOLDEN—Rich golden yellow, excellent eating and cooking apple. Flesh crisp, juicy and sub-acid.

WEALTHY—Almost full red in color. The flesh is white with trace of red. Fruit is very juicy and has a delicious flavor.

YELLOW BELLFLOWER—Oblong ribbed fruits. Yellow skin touched with green and blushed pink. Cooking variety.

RED DELICIOUS

WINESAP

All of our fruit tree Budwood is **SELECTED** (not gathered), in cooperation with the State Experiment Station and the Oregon Department of Agriculture.

APPLES

WINTER VARIETIES

BALDWIN—One of the old favorites. Hardy, rapid grower. Fruit large, round, deep red, crisp and juicy. Good family variety.

BRIGHT RED ROME—A magnificent "double red" Rome Beauty; very early bearer; excellent shipper; a sure cropper.

DELICIOUS—This is the original Delicious and all that is claimed for it. It is a thrifty grower, hardy and prolific bearer. Highly flavored, excellent quality and a good keeper.

RED DELICIOUS—Large brilliant red, flavored sweet, lightly touched with acid. Flesh fine grained, crisp and juicy. Preferred for eating. Good keeping qualities.

YELLOW DELICIOUS—A wonderful apple; an early bearer of beautiful yellow apples; good shipper.

NORTHERN SPY—A fine, large striped red, tender, mild, juicy apple, excellent eating or cooking. Keeps well up to June. Strong growing trees.

RED SPY—New, from New York Experiment station; typical Spy except in color; solid bright red; very hardy and productive.

ROME BEAUTY—Large, yellow and bright red. Flesh yellowish, tender, juicy, sub-acid. Good bearer, excellent cooking apple.

YELLOW NEWTOWN PIPPIN—This stands as high as any apple; a market and cooking variety. One of the best keepers known. Flesh rich, juicy and crisp.

SPITZENBERG—Medium to large, deep red, spicy, crisp flavor, an old favorite, good cooking and eating. Fine keeper.

RED SPITZENBERG—A solid rich red Spitzenberg of high flavor and quality.

WAGENER—Medium to large; deep red in the sun. Flesh is firm, sub-acid and excellent flavor. Very productive, even when young. December to April.

JONATHAN—Red and yellow, juicy, rich flavor, tender flesh. Very productive. Good commercial apple. Fine eating.

RED JONATHAN—Same type and quality of Jonathan, but a solid red highly colored apple.

WINTER BANANA—Large, clear waxy yellow with blush, fine tart flavor, good cooking and eating, crisp.

WINESAP—One of the standard commercial varieties due to its excellent keeping qualities. Dark red skin; juicy, sub-acid flavored flesh.

RED STAYMAN—New rich dark red Stayman. Heavy bearer, firm texture, delicious spicy flavor. Late keeper, good commercial and home apple.

PEACHES

PRICES: Please refer to condensed price list, page 5.

IMPROVED ELBERTA

Plant Peaches for Quicker Profits

Best commercial peach sorts for the Northwest and Pacific Coast. All Freestones. Improved Early Elberta, J. H. Hale, Rio Oso Gem, Western Pride, Rochester, Elberta, Golden Jubilee, and Hale Haven.

"These are money makers."

LISTED IN RIPENING ORDER

MAYFLOWER—One of the earliest peaches. Medium sized, creamy white fruits, mottled with dark red; firm, white, juicy flesh.

ALEXANDER—One of the finest early peaches. Greenish-white skin, shaded red; white flesh, very sweet and juicy.

FISHER (Plant Patent No. 233)—A new peach with excellent shipping qualities. Round, firm, yellow-fleshed fruit with satisfying "peachy" flavor. Ripens six weeks ahead of Elberta. **Add 20c Royalty.**

NECTAR (Plant Patent No. 86)—Finely textured white-fleshed peach of distinctive flavor suggestive of nectarine. Almost fuzzless and with an appetizing aroma. A fine early ripening freestone. **Add 20c Royalty.**

BABCOCK—The fruit is almost round, above medium size; colored beautiful pink to deep crimson. The skin is exceptionally smooth; flesh white. Recommended for regions having a mild winter only.

ARPS BEAUTY—Elberta type, hardy, prolific. Skin yellow, mottled bright crimson. Flesh is yellow, firm, juicy, excellent flavor. Semi-clingstone.

HALES EARLY—One of the very best early white peaches. Skin greenish, splashed with red. Flesh white, juicy and sweet.

IMP. TRIUMPH—An extra early yellow fleshed peach. Skin very tender; juicy and sweet. Freestone.

RED HAVEN—Tops all extra early peaches. Earliest yellow freestone, ripening about 10 days before Golden Jubilee. Brilliant red color with creamy yellow background, smooth skin, almost fuzzless. Reddens before it ripens. Bears heavy crops and should be thinned for best results. See illustration.

GOLDEN JUBILEE—The wonderful new yellow freestone ripening ahead of Rochester, making it a highly profitable sort of excellent quality. Firm, rich in sugar, delightfully fragrant.

ROCHESTER—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow, freestone, good size, very sweet, fine flavor. Requires only half the usual amount of sugar for canning.

WESTERN PRIDE—See description, page 2.

SLAPPY—Fruit yellow, good keeper; excellent flavor, fine grained, rich. Hardy, early yellow peach. Excellent quality.

CHAMPION—Best of white freestone varieties. Skin creamy-white with red flesh. Extremely hardy and of uniform good quality.

EARLY CRAWFORD—Has all characteristics that gratify taste. Color rich red splashed and mottled with darker red and golden yellow. Flesh is beautiful and perfectly free from stone. Matures in mid-season. Vigorous and productive.

HALE HAVEN—A wonderful new, extremely hardy shipping peach, ripening between Rochester and Improved Elberta. Immense golden yellow with a red cheek and a strong protective skin. This fine grained, firm, rich, golden fleshed freestone bears very heavy crops at an early age. Very profitable. An improved South Haven.

VETERAN—A yellow freestone of Canadian origin. Fruit is large, round, superior to Elberta in quality and ripens about two weeks before Elberta.

GIANT ELBERTA—See description, page 3.

IMPROVED EARLY ELBERTA—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side; a strong protecting skin; exceptionally heavy bearer and a wonderful pollenizer for the J. H. Hale. Ripens about two weeks earlier than Elberta. A truly super-quality canning peach.

J. H. HALE—Peach growers have demonstrated during the past several years that this is a profitable variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm; flavor is unexcelled. Fruit ships exceedingly well; remains on the tree in a firm condition for a longer time than any other freestone. **The true type J. H. Hale.**

ELBERTA—Large yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.

MUIR LATE—Skin yellow, easily peeled. Flesh color yellow to pit, tender, sweet and mild. A good bearer; resistant to Curl leaf.

INDIAN BLOOD—Home use. Deep red flesh. Popular for pickling and other culinary uses.

PEACHES

PRICES: Please refer to condensed price list, page 5.

RIO OSO GEM (U. S. Plant Pat. No. 84—Add 10c per Tree)—A splendid new peach that ripens during the period when there is no other peach on the market. **Rio Oso Gem** ripens ten days to two weeks after J. H. Hale. Has extreme large size of J. H. Hale, is more highly colored, finer grained in texture, firmer and of better quality than J. H. Hale.

TUSCAN CLING—Commercial canning, shipping, and home orchard. Fruit of good size and attractive. Flesh yellow, with some red at pit. Flavor good.

LATE CRAWFORD—One of our oldest varieties, and still popular as a home orchard sort. A large yellow freestone of excellent quality.

ORANGE CLING—Home canning and shipping. Fruit very large; attractive. Flesh yellow and of good quality. Very productive.

SALWAY—Shipping, drying and home orchard. Flesh yellow, of fairly good quality.

KRUMMEL OCTOBER—One of the latest freestone peaches and a profitable market variety. Fruit large, lemon yellow, lightly blushed with carmine; flesh yellow, red at the pit.

RED HAVEN

RIO OSO GEM

NECTARINES

PRICES: Please refer to condensed price list, page 5.

In growth, habit, treatment and soils precisely similar to peach. Valuable for dessert; smooth skin.

BOSTON—Medium; deep yellow, with a bright blush and deep mottlings of red; flesh yellow without any red at the stone; sweet. Freestone.

QUETTA—(New.) Yellow meated and highly colored. Very hardy.

STANWICK—Extremely large fruit, skin pale green, shaded purplish red; flesh white and juicy, with a most delicious flavor.

DIXIE—Large size, highly colored skin, deep yellow flesh. One of the finest of all for eating and home use.

APRICOTS

PRICES: Please refer to condensed price list, page 5.

TILTON—Fruit large size, rich apricot color, flavor of the highest quality. Bears immense crops, either for canning or drying.

PEACH APRICOT—An extremely early, very large, handsome color, firm, rich and highly flavored. Shipping sort.

WENATCHEE MOORPARK—One of the largest size apricots. Color deep apricot with brownish red when ripened in the sun. Flesh firm, juicy and parting from the pit, pleasant sweet flavor.

MORMON (or Chinese Apricot)—Hardest of all apricots. The fruit is large size with a firm, fine grained texture, exceptionally sweet flavor and retains its rich apricot color when canned.

PERFECTION—An exceedingly large size Apricot, good flavor, sweet and juicy. Trees bear abundantly at an early age.

PLUMS

PRICES: Please refer to condensed price list, page 5.

BEAUTY—Early June. Shipping and home orchard. The earliest Japanese plum, important commercial variety. Fruit medium size, heart shaped, and crimson. The flavor is good. Tree productive; self-fertile.

BURBANK—Home orchard and shipping fruit of large size, almost round, yellow mottled with red. Flesh sweet and of good flavor. Ripens after Climax and before Santa Rosa.

CLIMAX—Large, heart shaped, cherry red fruit. Delicious juicy fruit ripens in mid-June. Tree bears heavily at an early age.

DAMSON—August-September. Local market and home orchard. A tart plum very popular for culinary uses. Fruit small, roundish, dark purple with heavy bloom. Very productive.

DUARTE—Late July. Shipping. A blood-red plum of late introduction. Fruit large and elongated; skin a dull red. Flesh firm, deep red, and good quality.

GREENGAGE—A medium small greenish yellow plum of high quality. Midseason.

PLUMCOT—Early June shipping and market variety. Medium size, light crimson, good flavor suggestive of apricot.

PEACH PLUM—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.

SATSUMA PLUM

SANTA ROSA—Large; purplish crimson; flesh yellow, mottled crimson; very good quality. Excellent for all purposes. Early July.

SATSUMA—A very large and well flavored plum with blood red flesh; skin blush red; very small pit; vigorous and productive. A well known variety much in demand for home canning. July.

RED ACE—Midseason. Big, red fleshed plum full of delicious juice. Freestone.

YELLOW EGG—Ripens end of August. A large, handsome yellow plum. Good for home use or market. Golden yellow covered with thick bloom. Flesh firm, sweet and juicy.

PRUNES

PRICES: Please refer to condensed price list, page 5.

STANDARD COMMERCIAL DRYING SORTS—Italian, Coates 14-18, Date, Improved French, Burton.

The Budwood for our prune trees is selected from the finest and best strains on the Pacific Slope.

BURTON—A new prune which is one of the largest and finest drying prunes. Rich violet-purple in color, with golden yellow flesh and small pit. A consistent and regular bearer. September.

COATES 14-18; DATE PRUNE—Sweeter, larger than French; fine for drying. Reddish purple, juicy.

HUNGARIAN—Largest size, beautiful bright red, one of the best for marketing; not good for drying. Sept.

ITALIAN (Fellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.

EARLY ITALIAN—One week ahead of Italian. Fruit identical in shape and color to common Italian.

SUGAR—Early August. Drying and fresh shipping. The earliest prune. Fruit medium to large, oval, dark purple. Flesh sweet, and of medium quality. A good mollenizer.

PARSON EARLY SWEET PRUNE—Description page 3.

BURTON PRUNES

CHERRIES

ROYAL ANNE CHERRIES (2/3 Natural Size)

SWEET CHERRIES

PRICES: Please refer to condensed price list, page 5.

Special Note to Commercial Planters—Our cherry trees are grown from heaviest consistent producing orchards. Pollenizers offered are taken from same proven blocks of Royal Anne, Bing, and Lambert.

BING—Very large, flesh solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipping and market variety. First of July.

BLACK REPUBLICAN—Fruit dark color; rich, solid and an excellent keeper. Middle of July. Pollenizer.

BLACK TARTARIAN—Very large, purplish black, half tender; flavor mild and pleasant. Tree vigorous, immense bearer. Ripe last of June. Pollenizer.

DEACON—Similar to Black Tartarian in color and size, but superior in texture and shipping qualities. One of the most satisfactory for pollenizing.

LAMBERT—Size very large; form roundish, heart-shaped; color dark purplish red, meaty and of fine texture; semi-cling, small seed; flavor sweet or very mild sub-acid, aromatic, rich. Quality very good and an excellent shipper.

ROYAL ANNE (Napoleon)—Fruit large; light yellow with red cheek, very rich, solid, excellent keeper. The leading commercial canning cherry.

CARLTON NURSERY
TREES AND PLANTS

SPECIAL NOTE TO COMMERCIAL ORCHARDISTS

Many beautiful cherry orchards, at 6 to 8 years old, quickly commence to die back and carry a lot of unhealthy wood structure, finally dying out completely. Avoid this terrible loss of time and money by buying your commercial cherry orchard from reliable nurserymen. We offer the finest of stock grown from bud selected sorts direct from the very finest cherry orchards in the west. We grow our cherry trees on whole roots of **true mazzard stock**. Many inferior cherry trees are offered annually by unreliable nurserymen. Buy only the best. Ours will stand the test of time.

In planting a cherry orchard care should be taken not to plant trees too close together; select a dry soil for the cherry, as a rule, although it is so hardy a tree that it will thrive in a great variety of soils. Use same care in planting as other trees.

CARLTON'S BETTER FRUITS

Bud-wood for our Cherry Trees is selected in cooperation with and registered by the Oregon State Experiment Station.

SOUR CHERRIES

PRICES: Please refer to condensed price list, page 5.

MONTMORENCY LARGE (Sour Cannery Variety)—This very hardy tree is a regular cropper, and bears immense crops at an early age. The fruit is large, fine flavor, shining red and valuable everywhere. Our Montmorency large buds are selected from the best proven blocks on the coast, and are highly recommended by the leading canneries.

EARLY RICHMOND (Kentish)—Medium size, bright red; flesh melting, juicy and rich acid flavor. Last of June.

ENGLISH MORELLO—Medium to large; blackish red, rich, acid, juicy and good.

LATE DUKE—Fruit large, roundish, rich, dark red, sub-acid. Ripens last of July.

MAY DUKE—One of the best hardy cherries; medium size, dark red, melting, rich and juicy. First of June.

QUINCES

PRICES: Please refer to condensed price list, page 5.

PINEAPPLE—Flavor is suggestive of pineapple; fruit resembles Orange quince; making superior jelly; can be eaten raw, has a most delicious flavor, not equaled by any other quince.

PERSIMMONS

Postpaid Prices:

3 to 4 ft. \$2.75 each
4 to 6 ft. \$3.25 each

HACHIYA—Large, conical in shape, beautiful vermilion color when ripe. Flesh deep yellow, soft and jelly-like; practically seedless. One of the best.

FUYU—Smaller persimmon, flat shape and very firm. Can be eaten when still hard; never puckery.

FIGS

OREGON GROWN AND ACCLIMATED

	Each
Two year old.	\$2.50
Three year select.	3.50

LATTARULA—A sweet white flesh fig of excellent flavor and quality. White skin. Bears first year. Ripens two crops a season. First crop first part of August, second crop October. Used for eating fresh or preserves. Has proven very satisfactory for the Northwest. For best crops do not prune.

BROWN TURKEY—The fruits are very large and long, a rich purplish-brown in color, becoming deeper purple as they mature, with rich strawberry-red flesh, fine grained, sweet and juicy. It seems to bear equally well, whether it be directly on the coast or in the interior or desert valleys. Larger and finer figs will be produced if the trees are heavily pruned back in the winter.

FIGS—CALIFORNIA GROWN

3 to 4 ft.	\$1.50
4 to 6 ft.	2.00

KADOTA—The leading canning and preserving fig. Fruit medium size, light green in color, very sweet and practically seedless. Tree bears when very young.

MISSION—Good all-purpose fig. Fruit medium to large, dark purple to black in color. Tree large, spreading, and produces two distinct crops.

WHITE ADRIATIC—Best white all-purpose fig in many coastal areas. Fruit medium to large, white with reddish pulp. Good quality.

BROWN TURKEY FIGS

IMPORTANT

Please Read Carefully Before Placing Your Order for Trees or Plants

The following explanations will familiarize you with the size, quality and dependability of the nursery stock you buy, and receive, from the **Carlton Nursery Company**.

Our 58 years of experience in growing and delivering better nursery stock and our many thousands of satisfied customers are your assurance for success with **Carlton** Plantings.

Our nurseries are located in the fertile Willamette Valley and the best soils obtainable for the propagation of nursery stock have been selected for producing **Carlton** trees. Our selection of varieties is dependable, because, in addition to our long experience, we have consulted and cooperated with horticultural specialists throughout the west in making a choice. All of our root stocks (foundation plantings), our cion and bud wood, and mature trees are rigidly inspected by and in cooperation with the State Department of Agriculture and the Oregon Experiment Station, furnishing added assurance to the planter that our trees are free from disease and true to name. All crooked and inferior trees are discarded and only first quality trees are sold.

Every workman is especially trained for his work in growing, handling, grading, and packing for shipment, and every operation is personally supervised by the owners. All varieties are carefully marked in the field with variety name and registration number, and each tree is labeled with its "true name" when shipped or delivered. We never substitute varieties except with the permission of the customer, and then with a similar variety, labeled "true to name".

All trees are pruned and shaped in the nursery row and fruit trees (with the possible exception of sweet cherry) are topped at the proper height for branching, thereby developing a uniform branched top in the nursery row. This is a decided advantage to small home planters or persons without the knowledge of proper pruning. (Please note: as many commercial orchardists prefer branching at various heights, trees shipped for commercial orchard planting are neither topped nor branched. However, these trees carry a normal amount of side limbs.) **We are the only nursery on the West Coast offering this high quality type of tree**, which gives the planter the thrift of a yearling tree and the quality and size of a two year tree. For best success we recommend that you follow the pruning, planting, and after care instructions contained in this catalog.

We Guarantee every tree, shrub, or plant we ship to be free from disease, true to name, and to arrive in perfect growing condition. If, for any reason whatever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money. It is obvious that we can not assure you that every plant or tree you receive from us will grow, because we have no control over the handling and planting of stock after it is delivered. **HOWEVER,, if the planter follows carefully the instructions given in our Planting Guides, we will replace, free of charge, trees and/or plants that fail to grow,** upon receipt of proof of loss within a reasonable time (under some conditions trees may not show growth until June. Request for replacements should be made in July following planting, and replacement trees will be shipped in the fall), providing, that request for replacement is not made where loss is due to reasons beyond our control, such as rodent damage, breakage after shipment is received and/or planted, improper drainage, etc. Trees that grow one year and die later will not be replaced free.

Post Office regulations limit the size of shipments which may be sent by mail. Usually up to 10 fruit trees, all flowering shrubs, roses, and small fruits may be sent by parcel post. Shade and weeping trees and evergreens are shipped by express, rail or auto freight. **We pay All Shipping Charges.**

If the customer specifically requests, fruit trees will be trimmed for planting. Otherwise, trees require pruning at the time they are planted. Orders are accepted any season of the year, for delivery at the proper planting time for your locality.

We wish to thank you for taking time to read this lengthy foreword, and feel that you will order with confidence from our company which is not only one of the oldest and most reliable nurseries in the Northwest, but one that enjoys the reputation of giving 100 cents in value for every dollar paid. Our interest in your success only begins, not ends, with the shipment of your order; we want you to have satisfactory and profitable results with **Carlton** trees.

Large	4 to 5' Br.	1.25	.85
Medium	3 to 4'	1.00	.75

(Special prices on larger orders)

BARCELONA—Most widely planted commercial variety. A large, round nut, fully self husking, rich in flavor, kernel uniform in size, clean of pellicle and very prolific when pollinized with about 15 per cent DuChilly and Daviana, alternated by setting every third tree in every third row to a pollinizer. Tree a strong, upright grower.

DU CHILLY—Pollinizer. A large, long nut, about 50 per cent self husking and balance readily husked by machinery or by hand, finest quality demanding a premium over Barcelona, often used as a main commercial crop.

DAVIANA—Pollinizer. A long, striped nut of the DuChilly type, excellent pollinizer for Barcelona and DuChilly; not planted commercially, quality good and tree a very strong, upright grower.

Explanation—NURSERY GROWN TRANSPLANTS are secured in our Nurseries by lining out tip-layer (one year) trees, and growing them a second year in a Nursery Row. The highly developed root system obtained in this manner, assures the planter of a quicker start and more thrifty growth when planted in the orchard.

FRANQUETTE (On California Black Root)—Proven to be the best yielder, highest quality, and most hardy tree for the Northwest, blooming late enough to insure regular crops of finely filled nuts. This combination cannot be found in many sorts.

SPECIAL NOTE—We offer an exclusive type of grafted Franquette tree grown from a record producing strain. Root system is highly developed.

ALMONDS

	Height	Caliper	Each
Extra Large	5 to 6' Br.	$\frac{5}{8}$ to $\frac{3}{4}$ "	\$1.75
Large	4 to 5' Br.	$\frac{1}{2}$ to $\frac{5}{8}$ "	1.50
Medium	3 to 4'	$\frac{3}{8}$ to $\frac{1}{2}$ "	1.25

Plant two varieties for pollinization.

I.X.L.—Standard commercial variety. Hulls easily. Nuts are large and symmetrical. Shell soft, smooth, kernel large and well filled, tree a strong grower.

NONPAREIL—Most popular thin shell variety. Kernel long and narrow and of excellent quality. Tree is a vigorous grower, producing heavy crops of large, well-filled nuts.

NE PLUS ULTRA—An excellent type, good producer, pollinizer, nuts medium to large. Good flavor.

TEXAS PROLIFIC—An excellent type, good producer, pollinizer, nut medium to large. Good flavor.

STRAWBERRIES, EVERBEARING

CANE BERRIES LOGANBERRY

Postpaid Prices:	Each	10
Heavy No. 1 Plants	\$.35	\$3.00

The fruit is large, long, an attractive red color, and although it is a little sour it is highly prized by a very great many people for jams and jellies and for mixing with raspberries and other berries in jams and preserves. The vines are trailing and have to be grown on trellis.

BOYSENBERRY

Postpaid Prices:	Each	10
Heavy No. 1 Plants	\$.35	\$3.00

An immense new berry produced by crossing blackberries, raspberries, and Loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The Boysenberry consistently produces heavy crops, bears young, and the fruiting season lasts two months. The vines are most hardy.

YOUNGBERRY

Postpaid Prices:	Each	10
Heavy No. 1 Plants	\$.35	\$3.00

The fruit is very large and very juicy, with a rich blended flavor that is pleasing to nearly everyone. The color so very dark red that it is nearly black and the seeds are few in number and soft. The vines are vigorous.

NECTARBERRY

Postpaid Prices:	Each	10
2-year Transplants	\$.50	\$4.00

Richest flavor of all. Heavier yielding over a long period. Fruits average even larger than Boysenberries.

RASPBERRIES

**A GOOD IN-BETWEEN CROP,
EASY TO GROW FOR HOME
OR MARKET**

(Finest of clean, healthy plants, guaranteed)

Postpaid Prices:	Each	10
No. 1 Plants	\$.20	\$1.75

RED

WASHINGTON—New, produces a very heavy crop of berries that are slightly larger than Cuthbert, firmer and brighter color. Disease resistant.

CUTHBERT—Very hardy, medium to large, firm and of excellent flavor, good shipper, at present the leading main crop raspberry.

NEWBURGH—New, the finest red raspberry. Its berries are large, heavy yielder, good shipper, and has rugged upright canes. Similar, but decidedly better than Latham.

EVERBEARING

INDIAN SUMMER—A new two-crop Red Raspberry. The berries are large, medium red and of high quality.

BLACKCAP RASPBERRY

MUNGER—Berries are large, attractive, firm and of the highest quality; rich, sweet and produced in abundance. Bush is hardy and vigorous grower.

THORNLESS BERRIES

Postpaid Prices:	Each	10
2-year Transplants	\$.50	\$4.00

THORNLESS YOUNGBERRY

Superior to the parent thorny type to the extent that the hard punishing and annoying thorns are not present. In other respects there is little difference. Berries ripen a few days earlier.

THORNLESS LOGANBERRY

This new berry has proven far more productive and the berries are larger than the old thorny type of Loganberry. A delightful, highly flavored berry of dark red color. The canes are large and entirely thornless.

THORNLESS BOYSENBERRY

This thornless strain has retained all the good characteristics of its parent, including its rugged, thrifty growth and hardiness. You can handle these canes with your bare hands and enjoy picking the large, attractive fruits.

WILLAMETTE RED RASPBERRY

Prices: Each 25c, 10 plants for \$2.25

A new red raspberry of exceptionally large size and very firm. This rich red berry has outstanding shipping qualities, and is supreme for table use, home canning and freezing. A disease resistant plant, producing two crops each season.

CASCADE BLACKBERRY

Postpaid Prices:	Each	10
2-year Transplants	\$.50	\$4.00

A fine new blackberry introduced to bring the flavor quality of the wild plant into the home garden. Fruit resembles Loganberry in size. It is a heavy yielder and unaffected by blight. Rich, sweet flavor, excellent for jellies and pies.

All berry plants we furnish are strong size, well-rooted and free from injurious diseases.

REMEMBER: We pay the postage.
(Except East of the Rocky Mountains)

SMALL FRUITS

BLUEBERRIES

CULTURE

An acid soil, rich in leaf mold and with an abundance of moisture throughout the growing season, is a necessity for successful blueberry culture. Peat bogs, alder bottoms, willow and cedar swamps, when cleared, make ideal locations for blueberries, as do upland soils containing a large amount of leaf mold, and a natural or artificial supply of water. The foliage resembles that of azaleas and the dainty pink flowers, borne in clusters, are ornamental. Plant in groups of two or more for purposes of cross-pollenization.

Postpaid Prices:

9-12 inch plants	\$1.25 each
12-18 inch plants	\$1.75 each

RANCOCAS—Early, large berries, strong grower, good commercial berry.

RUBEL—Midseason, medium sized berries, good flavor, produces enormous crops.

HARDING—Midseason, medium sized berries, very sweet.

GROVER—Late season, berries large, delicious flavor.

BLUEBERRIES

CURRENT

Postpaid Prices:

	Each	10
Heavy No. 1 Plants	\$.35	\$3.00

PERFECTION—Bright red. It is one of the most productive currants. Rich, mild, sub-acid flavor and having plenty of pulp with few seeds.

CHERRY—The largest of all red currants; berries sometimes more than one-half inch in diameter; bunches short; plant very vigorous and productive.

GOOSEBERRY

Postpaid Prices:

	Each	10
Heavy No. 1 Plants	\$.35	\$3.00

OREGON CHAMPION—Berries medium, round, smooth, greenish-white with thin transparent skin; good quality and ripens early; bush vigorous and very free from mildew.

TABLE GRAPES

European varieties of grapes produce best in the warmer climates. In the northwest, plant these varieties in well-protected, warm location.

Postpaid Prices:

	Each	10
No. 1 Plants	\$.50	\$4.00

MUSCAT OF ALEXANDER—Large, long, somewhat loose bunch; berries elongated, slightly oval, amber color when ripe; flesh firm and brittle, sweet, rich, sugary. Used largely for raisins. September.

THOMPSON SEEDLESS—The best known seedless grape; widely planted for raisins, market and home fruit as well. Large bunch of rather small, amber-yellow berries; sweet and mild.

TOKAY—Very large bunch and berry, thick skin, pale red covered with bloom; firm sweet flesh. An old standard table variety. October.

RIBIER—Extra large, handsome black variety, useful for arbors. Mid-season.

SWEETWATER (White)—Medium size, sweet, rich flavor.

CURRENT

GRAPES

Always Bear

Have Plenty of Grape Jelly, Jam and Juice

HOW TO PLANT GRAPES—Dig a deep, broad hole and fill up to the right depth for planting with compost or rich soil. Trim the roots slightly and cut back the top to three or four strong buds. Use rich soil and always firm earth around plant.

HARDY AMERICAN GRAPES

Postpaid Prices:	Each	10
No. 1 Plants.....	\$.50	\$4.00

Special prices on large order s.

CAMPBELL'S EARLY—Handsome black berries with purple bloom; rich, keeps very well.

CONCORD—Fine black variety; juicy and sweet, splendid flavor; reliable and productive. One of the most popular and adaptable varieties. The standard grape in many sections.

WORDEN—Seedling of the Concord, which it greatly resembles in appearance and flavor, but the berries are larger. The fruit is better flavored and ripens earlier than the Concord.

NIAGARA—Very large, round, golden white grape of musky flavor, grown in large, compact bunches. Ripens same season as Concord and is often called the "White Concord". Very hardy and prolific.

AGAWAM—Large bunches, red berries, tender and juicy; ripens early. Good bearer. A very fine table grape.

CONCORD GRAPE

CACO GRAPE

NEW HARDY GRAPES

Postpaid Prices:	Each	10
No. 1 Plants.....	\$.75	\$6.50

CACO—The new red grape. Of exceptional merit. Earlier than Concord. Wine-red, compact bunch, good size, hardy, thrifty grower. Good arbor variety.

FREDONIA—This new blue-black grape was originated and thoroughly tested by the New York Experiment Station. Ripens 15 days before Concord. Very large berries on compact bunches; spicy, sweet flavor and fragrant. Vines are hardy, thrifty, and heavy producers.

GOLDEN MUSCAT—Choicest golden amber-white grape for your fancy desserts and wines. Large, somewhat oblong berries in large, compact bunches. Rich, sweet, mellow, aromatic Muscat flavor. Wonderful keeper, shipper and producer.

ISLAND BELLE—Ripens middle of August to September. Keeps sound and perfect both on and off the vine for weeks, after other grapes are gone. Both clusters and berries are large, glossy black with attractive blue bloom; sweet and juicy. Stands at the head of early black grapes for quality.

MME. CHIANG KAI-SHEK (Pat. No. 664)—Large, tapering buds opening to large flowers of Empire yellow, fading to white as flowers mature. Leathery, glossy dark green foliage. **Each \$1.50; 3 for \$4.00, Postpaid.**

MME. HENRI GUILLOT (Pat. No. 337)—Pointed buds of raspberry-pink expanding into big exhibition flowers. Glossy foliage. **Each \$1.50; 3 for \$4.00, Postpaid.**

MME. MARIE CURIE (Pat. No. 727)—An All America for 1944. Clear yellow blooms beautifully formed and sweetly fragrant. Color of flowers deepens in the Fall. Abundant foliage. **Each \$1.50; 3 for \$4.00, Postpaid.**

MRS. H. M. EDDIE (Pat. pending)—A new white rose on the deep cream side, large exhibition blooms and large foliage. **Each \$1.50; 3 for \$4.00, Postpaid.**

REX ANDERSON (Pat. No. 335)—Lovely ivory-white. Awarded First Class Trial-ground Certificate, National Rose Society, England. Abundant gray-green foliage. **Each \$1.50; 3 for \$4.00, Postpaid.**

SANTA ANITA (Pat. No. 539)—A true rose pink double bloom, slightly reflex petals with silvery sheen on outside. Bushy plant with plentiful foliage of light green. **Each \$1.25; 3 for \$3.50, Postpaid.**

SATURNIA (Pat. No. 349)—Exciting color contrast distinguishes this rose. Brilliant cardinal-red inside of petals, with reverse salmon-yellow and copper. Fragrant. **Each \$1.50; 3 for \$4.00, Postpaid.**

SHOW GIRL (Pat. No. 646)—Lovely pink deepening to scarlet-pink in cool weather. Profuse bloomer, generous foliage, needs plenty of room. **Each \$1.50; 3 for \$4.00, Postpaid.**

SONATA (Pat. No. 732)—Shapely buds of cochineal-red, outside of petals several shades lighter than inside. Very fragrant and ideal for cutting. **Each \$1.35; 3 for \$3.75, Postpaid.**

SWEET SIXTEEN (Pat. No. 631)—Salmon-pink to rose, with a touch of gold at base of petals, becoming all-rose when fully open. Sweetly fragrant. Good cut flower. **Each \$1.50; 3 for \$4.00, Postpaid.**

WHITE WINGS (Pat. applied for)—Pure, clear-white petals around a golden center crown form a glistening contrast to the laurel-green foliage. Blooms in pyramidal sprays. **Each \$1.50; 3 for \$4.00, Postpaid.**

CRIMSON GLORY (Patent No. 105)

TREE ROSES

Postpaid Prices: Large—No. 1 Grade, \$5.25 each

The dramatic beauty of tree roses transforms any garden. Very effective along a hedge, fence, or at the garden gate. Everblooming trees with large fragrant roses at eye-level.

CHRISTOPHER STONE—Velvety scarlet-crimson that does not blue. Fragrant, heavy bloomer.

ECLIPSE (Pat. No. 172)—Slim tapering buds develop roses of brilliant golden yellow. Light fragrance, long-lasting when cut.

FRED EDMUNDS (PP)—Symmetrical buds of burnt-orange open to glorious 25-petaled blooms of vivid glowing coppery-orange which slowly changes to apricot. A spreading plant with glistening olive-green foliage.

J. OTTO THILOW—The clear rose-pink blossoms of this variety are perfectly formed. Even the full bloom rose is symmetrical.

K. A. VICTORIA—The old favorite, a white rose with shapely pointed buds. Exquisitely perfumed.

PEACE (Pat. No. 591)—Yellow buds edged in pink slowly open to glorious five-inch blooms of alabaster white. Clean holly-like foliage, continuous blooms.

PICTURE—Well shaped buds develop into medium-sized fragrant rose-pink flowers. Vigorous plants almost constantly in bloom.

PRES. HOOVER—A glorious rose with charming color harmony in cerise-pink, flame, scarlet, and gold.

SOUTHPORT—Bright red with touch of gold at the base; does not blue. Double open blooms.

TALISMAN—A color blend of orange, yellow, rose-red and scarlet on a background of rich old gold. Long-lasting, free blooming.

SHIPPING TREE ROSES

Tree roses require special packing.

Please send \$1.00 to cover cost of packing 1 to 3 trees.

COPYRIGHT

PINOCCHIO (Patent No. 484)

FLORIBUNDAS

Newest development in Rosedom. Gives your garden June-day appearance from spring until heavy frost. Superb in borders, among evergreens and perennials. Especially suitable for table decorations and corsages.

Any Three Floribundas for \$4.00. All Five only \$6.50.

FLORADORA (PP)—Geranium-red blooms freely produced all season on erect, symmetrical plants. Glossy foliage. **\$1.50, Postpaid.**

GOLDLOCKS (Pat. No. 672)—Glorious sunshine yellow, finest of yellow floribundas. Buds open gracefully to many-petaled, showy blooms, produced continuously all season. Wild rose fragrance. **Each \$1.50, Postpaid.**

PINOCCHIO (Pat. No. 484)—Rich salmon flushed with gold changing to soft clear pink as bloom develop. Exotic fruity fragrance, ever-blooming, disease-resistant. **Each \$1.50, Postpaid.**

RED RIPPLES (PP)—Intense vivid-red color and beautifully formed blooms. **Each \$1.50, Postpaid.**

SMILES (Pat. No. 331)—Exquisite coral-pink buds opening to semi-double salmon-pink blooms. Gorgeous clusters of flowers from early spring to frost. Daintily perfumed. **Each \$1.50, Postpaid.**

SANTA ANITA (Patent No. 539)

Beautiful CLIMBING ROSES

HIGH NOON CLIMBER

1948 Sectional Winner

AARS (Pat. 704) Brilliant yellow, well shaped buds and semi-double flowers on long, thornless stems continue to bloom throughout each growing season. Exceptionally fine in mild climates.

Each \$2.50, Postpaid

REVEIL DIJONNAIS (Climber)

ONLY ONE GRADE — THE BEST

Postpaid Prices:	Each
Two Year No. 1—Top Grade.....	\$1.10
Three for \$3.00 . . . Only \$11.75 per Dozen (Except as otherwise listed)	

For the trellis, porch or arbor, the Climbing Roses produce a most wonderful covering of delicate foliage and delightful flowers.

CLI. BLAZE (Pat. No. 10)—The everblooming counterpart of Paul's Scarlet. Brilliant red blooms can stand full sun. Everblooming when plant is well established. Each \$1.50; 3 for \$4.00, Postpaid.

FRENCH BUDDED LILACS

CLI. ETOILE DE HOLLANDE—Very satisfactory all-around red climbing rose. Deliciously fragrant.

CLI. GOLD RUSH—Apricot-yellow buds and flowers of excellent form and substance. Repeats about 4 times during season.

CLI. HEART'S DESIRE (Pat. 663)—Climbing form of All America Selection for 1942. Clear red, open to full high centered flowers, fragrant and unfading. Each \$1.50; 3 for \$4.00, Postpaid.

CLI. MRS. SAM MCGREDY—Large double blooms of orange-salmon, with a suffusion of gold.

CLI. PAUL'S SCARLET—The most popular of all red climbing roses. Vivid scarlet flowers of large size produced in clusters.

CLI. PRES. HOOVER—A glorious rose with blooms of blended cerise-pink, flame, scarlet and gold.

CLI. REVEIL DIJONNAIS—Large semi-double flowers of light yellow bordered with cerise pink.

CLI. SANTA ANITA (Pat. No. 539)—Perfectly formed pointed buds unfold into glorious blooms of clear, peach-blossom pink. Each \$1.50; 3 for \$4.00, Postpaid.

CLI. TALISMAN—A climbing sport of the popular bush form. Flowers a mixture of orange, yellow, rose-red, scarlet and gold.

French Budded Lilacs

The French Lilacs are far superior to the old variety, or common Lilac. They produce immense clusters of high colored, fragrant blossoms, and bloom at an early age. We have them in both Double and Single.

BELLE DE NANCY—Double satiny rose blooms.

CHAS. JOLY—Double flowering purplish-red.

LUDWIG SPAETH—Single dark red, color holds well.

MME. LEMOINE—Double pure white.

PRES. GREVY—Double, clear soft light blue.

LILAC COLLECTION

First quality plants: 2 to 3 ft. size, \$1.75 each.

Any three for \$4.50—Postpaid.

HEDGE PLANTS

Can You Imagine Anything More Beautiful and Fascinating Than a Living fence?

BOXWOOD

Suffruticosa (True Dwarf)—Just the thing for formal gardens. No. 1 hedge grade. 50c each; 25 or more @ 40c each.

HONEYSUCKLE

BARBERRY

Thunbergi—Handsome bright green foliage turns to brilliant autumn colors in Fall. Scarlet berries last into Winter. Hardy and thrives in sun or shade. 12-15 in. plants: 10 for \$4.50.

LAUREL

English—Best for large hedge. 12-18 in. plants: 50c each; 50 or more @ 40c each.

PRIVET

Californica—A rapid grower and makes a full compact hedge. Same price as English

English—One of the best. 18-24 in. plants: 25c each; 50 or more plants @ 20c each.

Climbing Vines

Vines provide comforting shade and colorful beauty. Nothing lends such pleasing effect to wall or veranda as gracefully trained vines.

Postpaid Prices (except Wisteria):

2 Year No. 1 Plants.....\$1.00 each; 3 for \$2.75

BITTERSWEET

Favorite, with bright glossy foliage, bearing sprays of bright orange berries in the fall.

HONEYSUCKLE

Hall's Japan—Old favorite. White and yellow flowers last nearly all summer; almost evergreen.

Scarlet Trumpet—Handsome clusters of scarlet flowers. Hardy, vigorous climber.

JASMINE

White—Good climbing vine with white flowers, very large and delightfully fragrant.

Yellow—Small foliage, flowers large, yellow. Handsome in spring when blossoms appear before leaves.

IVY

Boston—Dainty, lovely vine with small overlapping leaves, forming a dense sheet of deep green, turning in the fall to bright scarlet. Clings tightly to any surface without support.

English—The best for bank covering.

SILVER LACE VINE

Beautiful, quick growing vine, with rich, glossy green foliage, and a mass of feathery white bloom.

VIRGINIA CREEPER

Dense, green foliage turns bronzy red in autumn. Clings to wall or any support.

WISTERIA (Grafted)

Purple or White—The most magnificent of all vines. Lasts for generations, becoming more beautiful each year. 2-yr. plants, \$1.75 each.

CLEMATIS

Clematis should be planted in rich well-drained loam, roots shaded and top in the sun.

Jackmani—The giant purple Clematis, and favorite everywhere.

Henryi—Large sized lustrous white flowers.

Mad. Ed Andre—Large velvety red flowers.

Paniculata—Luxuriant grower, with fine foliage and an abundance of small, white, fragrant flowers.

CLEMATIS, JACKMANI

WISTERIA

Flowering Shrubs

Postpaid Prices

	Each	3 for	12 for
Strong No. 1 Plants.....	\$1.25	\$3.25	\$12.00

(Except as otherwise listed)

Flowering shrubs herald the advent of spring as surely as do the nesting birds. They add colorful, fragrant blooms to garden and fence corners, and illuminate the permanent screen of evergreens.

Flowering shrubs give the finishing touch so much required by small and large home-grounds. When properly arranged, shrubs will soften the lines of the foundation, will provide an effective border screen, will cover the edges of walls and screen objectionable views. Shrubs may also be used for covering slopes and for dividing the landscape into small sections, and for bordering the outdoor living-room of small homes. A selection of varieties will give a succession of flowers from spring until late autumn and after the foliage has fallen the brilliant berries and branches add color and cheer to the winter landscape.

ALTHEA (Rose of Sharon)

Bright glossy leaves; flowers similar to a rose. Hardy summer and fall blooming shrub. **Double white, double pink, double purple, and double red.**

BARBERRY

Japanese Thunbergi—An excellent group plant or for hedging. Foliage turns to a bright crimson before falling. Red berries.

Thunbergi Atropurpurea—Same as above except the foliage red at all times.

BUTTERFLY BUSH (Buddleia)

An attractive shrub of spreading pendulous habit of growth; the branches tipped with long spikes of charming perfumed blossoms.

Charming—Long sprays covered with lavender-pink blooms.

Concord—A new dark red Buddleia with blood-red eye shading lighter to edge of petals.

Dubonnet—A new dark wine. Large spikes and individual flowers of good size.

Fortune—Flowers of pure lilac with a brilliant orange eye.

Ile de France—Large flowers of rich, reddish-purple, borne in long panicles.

BEAUTY BUSH (Kolkwitzia)

In the spring, the graceful, arching branches of this fine shrub are completely covered with lovely pink flowers. The foliage itself is very attractive.

CORALBERRY

Symphoricarpus Vulgaris—A slender branched upright shrub for shady places. Fruit is purplish red and hangs on well into winter; flowers small, rose colored.

BUTTERFLY BUSH, CHARMING (Butterfly Bush)

HONEYSUCKLE, MORROWI

PHILADELPHUS VIRGINALE

CRANBERRY BUSH

CRANBERRY BUSH

(Viburnum Opulus)

Tall growing snowball, producing red berries during late summer and fall.

DEUTZIA

Rosea—White flowers tinged with pink on backs of petals, giving the plants a pink effect.

Gracilis—A dwarf compact form with clear white flowers.

Pride of Rochester—Tall growing, white flowers tinged rose on back.

CARLTON NURSERY COMPANY

Flowering Shrubs

Postpaid Prices:	Each	3 for	12 for
Strong No. 1 Plants.....	\$1.25	\$3.25	\$12.00

(Except as otherwise listed)

HYDRANGEA

Otaksi—Profuse double blue blossoms. Low and slow growth. Heavy clumps. **\$1.75 each, 3 for \$4.75.**

Aborescens (Hills of Snow)—Showy flower heads from June to cold weather.

Paniculata Grandiflora—Large cone shaped flowers of white in August, changing to pink as the flowers ripen.

QUINCE

Japonica—A very fine old plant that should find a place in every garden. Red.

FORSYTHIA

All varieties are grown for their pretty bright yellow flowers very early in the spring, ahead of their leaves.

Fortunei—Upright heavy arching branches.

Intermedia Spectabilis—Largest, darkest flowers. Most profuse bloomer.

HONEYSUCKLE

Morrowi (Bush Honeysuckle)—An upright grower with pure white flowers.

Pink Tartarian—Similar to above but with pink flowers.

KERRIA

Japonica—Slender upright stems and branches. Double orange flowers in the early spring and continue intermittently throughout the summer.

WEIGELA GROUP

BEAUTY BUSH

PHILADELPHUS

Lemoinei—Rich foliage and large pure white fragrant flowers.

Virginalis—Semi-double flowers blooming very freely in spring and intermittently all summer.

SNOWBALL

Opulus Sterile—The old fashioned snowball that blooms in May.

Tomentosum Plicatum (Oriental Snowball)—Showy clusters of double white flowers. **\$1.50 each.**

SPIREA

Anthony Waterer—Crimson flowers blooming profusely all summer if spent flowers are kept cut away.

Thunbergi—A beautiful display of white flowers in the early spring ahead of the leaves. Soft feathery foliage.

Van Houtte—Upright, tall growing with flowers in white clusters.

TAMARIX

Africana—A beautiful shrub with small feathery foliage. Delicate pink flowers.

Hispid—Bright pink flowers, June-July. Very hardy.

WEIGELA

Candida—A fine pure white, which blooms all summer.

Eva Rathke—Dwarf form with red flowers. Blooms continuously throughout the summer.

Rosea—Bright pink bell-shaped flowers.

DOUBLE FLOWERING ALMOND

Postpaid Prices: 2-3 ft. \$1.00; 3-4 ft. \$1.50

These well-known bushy shrubs never fail to produce in early spring, before the leaves appear, small, very double, pink or white, rose-like flowers that are closely set along the branches.

Choice of pink or white.

Flowering Trees

FLOWERING CHERRY, KWANZAN

ROSE-FLOWERING CHERRIES

Postpaid Prices:	Each
5-6 ft., branched.....	\$2.75
4-5 ft., branched.....	2.25

Among the flowering trees the rose-flowering cherry takes the lead. They vary in form and therefore may be adapted to many uses in landscape work. Some are vase-form, others pyramidal in growth, but most sorts have wide-spreading branches, vigorous in growth, and still others are rather dwarfish. Nearly all are tinted various shades of pink, and a few are white. Trees are hardy. While known and used in the Orient for hundreds of years, these valuable trees are rapidly becoming popular and gaining favor in the United States. Both upright and weeping growth.

Kwanzan. Double, rose-pink—Handsome of all the double flowering cherries. Blooms just after the middle of April (depending somewhat upon locality). The tree is upright and spreading, and at maturity 25 to 30 feet high. Leaves and flowers appear simultaneously. The buds are red, and the fragrant, rich, rose-colored double blossoms are borne in clusters. Flowers are very large, up to 2 inches in diameter. A graceful and beautiful tree for the lawn or grounds, also adapted for planting in parking strips and along avenues.

Shirofugen—15 ft. Has the very largest flowers of any variety that we grow, deep pink in the bud and pale pink in the open flowers. It is almost impossible to describe the beauty of this tree when in full bloom.

Mount Fuji—Pure white; remains attractive; calyx turning reddish with age. A bushy, small tree, hardy, extremely floriferous.

Naden—One of the most handsome types. Semi-double lavender pink flowers.

WEeping CHERRY

No. 1 Heads, about 6 feet tall.....\$4.50 each

Single Pink Weeping Cherry.

Double Pink Weeping Cherry.

One of the finest weeping trees for lawns and small grounds. The branches are slender and when grafted on tall stems, fall gracefully to the ground. The flowers are rose-colored, appearing before the leaves.

Note: Weeping trees will be trimmed, ready to plant, when shipped.

PURPLE-LEAVED FLOWERING PLUMS

Postpaid Prices:	Each
5-6 ft., branched.....	\$2.00
6-8 ft., branched.....	2.50

Small growing, distinct ornamental trees used as specimens or grouped with other trees and shrubs in border or background. Their foliage produces beautiful tones of purple, very attractive where colored effects are desired. The varieties differ in pink, white, single and double blossoms.

Bliriana—Upright growth with dark purple foliage. The blossoms appearing early in May, are deep pink, double and fragrant. The shape and size resemble the Flowering Almond blooms. This is one of the best varieties. Twelve to fifteen feet at maturity.

Pissardi—Beautiful purple foliage, retaining its color well through the season. It has attractive pale pink flowers in May. Edible fruit excellent for jelly. Fifteen to twenty feet at maturity.

Vesuvius (Burbank's Purple Leaf Plum)—Foliage larger and more reddish than *Prunus Pissardi*. Flowers are slightly larger and later. A very brilliant decorative tree.

Thunder Cloud—This and the *Vesuvius* have the most beautiful foliage of any of the flowering plums. The leaves appear a rich red color and gradually become darker, turning to a very rich purple.

FLOWERING PLUM (*Prunus Bliriana*)

Flowering Trees

FLOWERING PEACHES

Prices:	Each
4-5 ft., branched.....	\$1.50
5-6 ft., branched.....	2.00

For an easily and quickly obtained mass of spring color, there is nothing to excel the Flowering Peaches. They will grow with the greatest ease anywhere and never fail to produce a great profusion of bloom. Not only are the trees a source of great admiration in the garden, but the trees enjoy having their branches cut for indoor use. (Spray with Bordeaux.)

Double Red—Rich ruby-red. Very large blooms.

Double Pink—Large double pink flowers. Strong growing tree.

WEeping PEACHES

Prices: No. 1 Heads.....	\$3.00 each
Double Red Weeping and Double Pink Weeping.	

FLOWERING CRAB (Malus)

Prices:	Each
5-6 ft., branched.....	\$2.00
4-5 ft., branched.....	1.50

Produces flower effects equal to those of more talked-of cherries. The crabs are hardy and add a charm of fragrant wildness to a planting.

They are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet, and crimson. No other flowering trees equal the flowering crabs in profusion of bloom, and among the other qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Atrosanguinea—In early May, every twig and branchlet of the Carmine Crab is covered with clusters of dark pink, almost crimson flowers. Its spreading or weeping habit of growth makes it a handsome lawn specimen.

Bechtel's—The flowers are a beautiful shade of pink, are large, very double and fragrant, resembling little roses. It blooms somewhat later than most varieties.

Eleyi—Attractive reddish foliage in spring changing to pink. Clustered single rose-pink flowers followed by showy red fruit.

Floribunda purpurea—Its purple foliage and bark, single crimson flowers and fruit make it a distinct departure from the ordinary. The flowers and fruit are carried on long, pendulous stems and are produced in great abundance. A strong grower.

Hopa—A beautiful, upright growing tree with attractive foliage. Entirely covered with rose-colored flowers in April. Fruit red inside and out, hanging on until late autumn. Very hardy and free from disease. Planted extensively.

Parkmani—An irregular shaped little tree when young, Parkman's Crab assumes a most attractive picturesque habit as it grows older. The flowers are bright rosy red, double, and droop gracefully on thread-like pedicels. It is a gorgeous ornament to any planting, and has long been a favorite.

Scheideckeri—The flowers of Scheidecker's Crab are double, bright pink, last a long time, and the fruit, which is produced in great profusion, is waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. Best and easiest to flower.

Spectabilis (Chinese Flowering Crab)—Growth decidedly erect and vase-like. Flowers double, fairly large and light pink, followed in autumn with yellow fruit.

PINK FLOWERING DOGWOOD

Pink flowering variety which is greatly in demand.

Prices:	Each
2-3 feet	\$4.00
3-4 feet	5.00

FLOWERING CRABAPPLE

PAUL'S DOUBLE FLOWERING THORN

LARGE, FAST GROWING SHADE TREES

Prices:	Each
5 to 6 ft., branched.....	\$2.00
6 to 8 ft., branched.....	2.50
8 to 10 ft., branched.....	3.50

(We Pay All Shipping Charges)

BIRCH

European—Leaves similar to Poplar. White bark and pyramidal form. A fine street tree and very hardy.

ELM

Chinese (*Ulmus Pumila*)—A rapid growing tree with a dense head. Extremely hardy.

MAPLE

Norway (*Platanoides*)—Large rapid growing tree that will cast a dense shade.

POPLAR

Lombard (*P. nigra italica*)—Tall, narrow growth. With age becomes one of the most striking and picturesque trees.

UNUSUAL SHADE TREES

Prices: As listed following variety name.

GINGKO

Maidenhair Tree (*Biloba*)—This unique tree with its fan-shaped leaves, like those of Maidenhair fern but larger, is unlike any other tree grown. It makes a beautiful addition to lawn or street. Foliage turns bright yellow in fall. 5-6 ft. whips \$2.00 each; 5-6 ft. branched \$3.50 each.

LABURNUM VULGARE

Goldenchain—Beautiful small tree with clover-shaped leaves; flowers are fragrant long chains of golden yellow. 5-6 ft. \$2.75 each; 6-8 ft. \$3.25 each.

HORSECHESTNUT

Pink Flowering—A slow growing dense shade tree with beautiful pyramidal cones of pink flowers. 8-10 ft. branched \$7.50 each.

SWEET GUM

Liquidambar styraciflua—A fine large-growing tree whose leaves resemble those of the maple with five pointed fingers. Glorious blended shades of red from bright to dark in autumn. 5-6 ft. \$2.50 each; 6-8 ft. \$3.50 each.

FLOWERING DOGWOOD

Cornus Florida (*Pacific Dogwood*)—Native. Pure white flowers six inches across. An exceptionally attractive Dogwood. Nursery grown. Each \$4.50.

Shade Trees

By all means plant shade trees. They are effective ornamentally from the time they are set out and soon their spreading growth will create a sheltered environment for the home that will be an increasing pride and joy with the passing years.

ORNAMENTAL SHADE TREES OF DISTINCTION

Prices:	Each
5 to 6 ft., branched.....	\$2.50
6 to 8 ft., branched.....	3.00

(We Pay All Shipping Charges)

BIRCH

Cutleaf Weeping—A very graceful, clean appearing tree with white bark and slender drooping branches, deeply cleft leaves.

BOX ELDER

Silver Variegated—Creamy white border on light green leaves makes this tree stand out bright in a planting. Grafted trees.

CATALPA

Speciosa (*Western Catalpa*)—A rapid growing tree with very large leaves, nice clean bark and large white flower heads, followed by long bean-shaped seed pods.

HAWTHORN

Paul's Double Red Flowering—Wide spreading irregular, spiny branches, the head about equaling the height in diameter. In May it is very decorative with an abundance of double carmine-red flowers, followed by red fruit.

LINDEN

European (*Basswood*)—Large, full heads. Large leaves similar to Catalpa. A good street tree.

LOCUST (Robinia)

Honey Locust (*Gleditsia Triacanthus*)—Of much slower growth than the black locust. Small round leaves similar to pepper trees. Very attractive and desirable as an ornamental tree.

MAPLE

Schwedleri—Very similar to the Norway maple except the leaves are purple in early spring.

Dasycarpum (*Silver Maple*)—Rather slim type with silvery bark and light green leaves.

MOUNTAIN ASH (Sorbus)

Aucuparia—Narrow erect tree with beautiful clusters of red berries in summer.

OAK (Quercus palustris)

Pin—One of the finest oaks for home planting. Straight trunk with symmetrical head of smaller sharp-pointed deeply cut leaves which become bright crimson in autumn.

Red—An excellent tree for park and street planting. Beautiful foliage turning red in autumn.

PLANE TREE (Platanus-Sycamore)

Orientalis—An evenly branched tree with rather broad head. A fine stately type.

REDBUD

Cercis Canadensis—Similar in effect to Hawthorn but of more regular growth. Clusters of rosy pink flowers cover the tree in May.

WILLOW (Salix)

Babylonica Weeping—The most effective large growing willow, narrow green leaf.

Niobe (*Golden Weeping*)—Golden bark, graceful weeping habit.

Rhododendrons

HANDSOMEST OF BROADLEAVED EVERGREENS

The wealth of dark green glossy foliage serves as a background to the numerous large clusters of gorgeous flowers which appear in spring and early summer. Color range in red, pink, white, and purple, in every shade and tint.

The following list includes many of the well-known, time-tested varieties, as well as a number of the English and Dutch Hybrids.

RATING AND CLASSIFICATION

The asterisks (*) indicate the rating of variety as given by the British Rhododendron Association. The letters A, B, and C are used as a guide in the selection of the site for planting. Those marked "A" are hardy and may be planted in full exposure, if desired. Those with "B" classification should have some protection to be grown to best advantage. Varieties marked "C" must have protection from the sun; hardy along coast and in warm gardens.

CAMELLIA SELECTION

The Camellia varieties described in this catalog have been expertly selected for Color, Form, Size, Beauty and Performance.

We have many additional varieties growing in our Nurseries, and solicit inquiries from those interested in additional kinds or larger plants.

VISITORS ARE ALWAYS WELCOME

COLONEL FIREY

DECIDUOUS AZALEA IN VARIETY

Azaleas

Azaleas prefer partially shaded location and acid soil. The *Mollis*, *Altaclarensis*, and *Occidentalis* are medium size deciduous shrubs; very effective in group plantings, or combined with evergreens. The *Hinodegiri*, *Rosea*, and *Snowdrift* are dwarf evergreen varieties and very profuse bloomers.

EVERGREEN VARIETIES

HINODEGIRI—A dwarf type. Bright red flowers in April. 6-9 inch \$1.75; 9-12 inch \$2.25.

LEDIFOLIA ALBA—Free-flowering white, blooms May to June. 6-9 inch \$1.75; 9-12 inch \$2.25.

ROSEA FLORA—A low-growing dwarf shrub producing large double-pink flowers in June. 6-9 inch \$2.00; 9-12 inch \$2.50.

WARD'S RUBY—New evergreen azalea with bright crimson blooms in early spring. Improved *Hinodegiri*. 6-9 inch \$2.00; 9-12 inch \$2.50.

DECIDUOUS VARIETIES

ALTACLARENSIS—Deep orange. A Chinese azalea resembling *Mollis*, except in color. 12-15 inch \$3.00 postpaid.

MOLLIS (Chinese Azalea)—Very colorful large flowers of bright orange to flame. Very hardy. 9-12 inch \$1.75; 12 to 15 inch \$2.75.

Deep cream colored *Mollis*: 50c higher per plant.

OCCIDENTALIS (Western Azalea)—A native of Oregon. Blossoms of pink to white with the fragrance of honeysuckle. 12-15 inch \$2.75; 15-18 inch \$3.50 postpaid.

Evergreen Shrubs

FOR SUNNY LOCATIONS

ABELIA GRANDIFLORA

Graceful evergreen shrub with arching branches, small reddish leaves turning to bright green, daintly fragrant pink-white bells in spring and early summer. 18-24 inch \$2.00.

COTONEASTER

Henryi—Luxuriant evergreen foliage, large clusters of red berries. Grows 8 to 10 feet in height. 18-24 inch \$2.25.

Horizontalis—Low spreading shrub with graceful sprays arching out over ground or rocks. The tiny round leaves turn bright red in fall. Red berries. 12-15 inch \$1.50.

Parneyi—Very showy evergreen, largest of this variety, dark green foliage and clusters of bright red berries all winter. 18-24 inch \$2.25.

GENISTA

Pilosa—Dwarf procumbent creeping broom. Neat, tidy, slow-growing, and evergreen. One of the most compact and complete ground covers. Small yellow flowers and small foliage. 9-12 inch spread \$1.75; 12-15 inch spread \$2.25.

HOLLY

English Berried—Glossy deep green leaves, regularly scalloped, abundance of red berries. Traditional for Christmas decoration. 18-24 inch \$4.50; 2-3 ft. \$5.50.

NANDINA DOMESTICA (Sacred Bamboo)

A handsome slow-growing shrub, leaves much divided, light green tipped with pink and copper in spring, turning to bright red during fall and winter. Flowers white, followed by crimson berries. Very striking appearance during winter months. 12-15 inch \$1.75; 18-24 inch \$2.25.

PRIVET

Golden—Rapid growing hedge plant. Leaves nearly oval, tinted with golden yellow. 18-24 inch \$1.50; 2-3 ft. \$2.00.

PYRACANTHA

Government Red—Large, bright red berries, profuse blooming Firethorn. 18-24 inch \$2.25.

Lalandi—Tallest growing Firethorn, orange-red berries in fall. 18-24 inch \$2.25.

Rosedale—Quantities of white flowers in spring, abundance of small red berries all winter. Can be kept trimmed for hedge. 18-24 inch \$2.50.

AZALEA HINODEGIRI

MAGNOLIA SOULANGEANA (Prices Page 35)

on shrubs and trees quoted in this Catalog, however, will be glad to quote larger sizes which will be shipped Express or Freight collect.

Broad-Leaved Evergreens

SHADE LOVING VARIETIES—Early morning sun and acid soil encourage these plants to develop their full loveliness. A loose mulch of leaf mold or compost should take the place of frequent cultivation.

ANDROMEDA

Japonica—Shiny dark green foliage whose new leaves are red-tinged. White masses of drooping flowers resemble large sprays of Lily of the Valley. 12-15 inch \$2.25; 15-18 inch \$2.75.

AUCUBA

Golddust—Large glossy green leaves spotted with gold. Bright red berries in the fall. (Pollenizer required.) Valuable for shady locations. 12-15 inch \$2.00; 15-18 inch \$2.50.

Green—Like the above but leaves entirely green. Plants bear brilliant red berries. (Pollenizer required.) For shady locations. 12-15 inch \$2.25; 15-18 inch \$2.75.

Pollenize:—12-15 inch \$2.25; 15-18 inch \$2.75.

DAPHNE

Cneorum—Low spreading growth, short slender leaf, dark green and glossy above with gray beneath. An abundance of fragrant pink flowers both spring and fall. 6-9 inch \$2.00; 9-12 inch \$2.50.

Odo:ra—Bushy evergreen shrub, light green leaves bordered with white. Clusters of very fragrant flowers in early spring. 9-12 inch \$2.00; 12-15 inch \$2.50.

KALMIA (Mountain Laurel)

Latifolia—Oval waxy green leaves, delicate pink flowers borne in clusters. Blooms May-June. 12-15 inch \$3.00; 15-18 inch \$3.50.

Portifolia—Narrow, glossy leaves on upright branches, low growing evergreen shrub. Bright pink blooms, spring and early summer. 12-15 inch \$3.25.

LAURESTINUS

Bushy evergreen shrub with clusters of pinkish-white flowers November to April. Equally good in sun or shade. 12-15 inch \$2.00; 15-18 inch \$2.50.

SKIMMIA JAPONICA

Narrow glossy green leaves on desirable dwarf evergreen shrub. Bright red waxy berries during the winter when planted with a pollenizer. 12-15 inch \$2.50; 15-18 inch \$3.00.

Pollenizer—9-12 inch \$2.25; 12-15 inch \$2.75.

SKIMMIA

DAPHNE ODORA

Evergreen Shrubs

Indispensable in all ornamental plantings. They impart a finish to the landscape whether planted as single specimen, or grouped together in mass.

We Pay All Shipping Charges

on the shrubs listed in this Catalog. We can supply larger sizes to be shipped Express or Freight Collect, and will be glad to quote on application. Visit our Sales Yard.

ARBORVITAE

Berckman's Golden—The most popular dwarf, golden arborvitae. Very compact, globe-shaped, bright golden foliage. 12-15 inch \$3.25 each; 15-18 inch \$3.75 each.

Globe—Bright green compact pointed globe with vertical fan-shaped branch development. 12-15 inch \$2.75 each.

Little Gem—Deep rich green foliage of unusual fineness, compact dwarf habit of growth. 6-9 inch \$2.75 each; 9-12 inch \$3.25 each.

Pyramidalis—Upright compact column type with light green foliage which keeps dense without shearing. 18-24 inch \$3.00 each; 2 to 3 foot \$3.50 each.

CEDRUS DEODARA (California Christmas Tree)

Leaves light green to bluish, with wide spreading, pendulous branches which are carried horizontal to the trunk clear to the ground. 2 to 3 foot \$4.50 each.

CYPRESS

Blue Alumi—Upright, symmetrical compact growth. Foliage is a rich blue. 18-24 inch \$2.50 each; 2 to 3 foot \$3.25 each.

Elwoodi—Dwarf, compact, columnar growth. Unusual silver-blue foliage. 15 to 18 inch \$3.50 each; 18 to 24 inch \$4.50 each.

Erecta Veridis—Pyramidal type with bright green foliage. 18-24 inch \$2.75; 2-3 ft. \$3.50.

Stewarti—Graceful pyramid of rich golden yellow foliage. 18-24 inch \$2.75; 2-3 ft. \$3.50.

JUNIPER

Irish—Tall slender shrub; dense blue-green foliage on stems which grow vertically from base of the plant. 18 to 24 inch \$3.25; 2 to 3 ft. \$3.75 each.

Pfitzers—Silvery green foliage on low spreading branches. Excellent ground cover and in foundation plantings. 12 to 15 inch \$3.00; 15 to 18 inch \$3.50 each.

Golden Pfitzers—Similar to Pfitzers but having golden foliage. 12 to 15 inch \$3.25; 15 to 18 inch \$3.75 each.

Tamariscifolia—A low-growing trailing variety with very fine needles of bluish green. 12 to 15 inch \$3.25 each.

HEATHER

9 to 12 inch \$1.25 each; 12 to 15 inch \$1.75 each.

Irish Bell—White, bell-shaped flowers.

Maxwell—Red, summer blooming.

Mediterranean—Pink, fall and winter blooming.

Springwood—White, winter blooming.

PINE, MUGHO

A densely branched dwarf tree, upper branches erect, lower ones recumbent. Needles dark green and stiff. 12 to 15 inch \$3.25 each; 15 to 18 inch \$3.75 each.

SPRUCE

Dwarf Alberta (Arctic or Polar)—Extremely close, pyramidal growth, thickly covered with short, close-set, twiggy branches, grass-green leaves. Unlike any other evergreen. 18 to 24 inch \$5.00 each.

Colorado Blue—Horizontal branches with close-set steel blue needles. Handsome symmetrical tree, erect and stately. 15 to 18 inch \$4.00 each; 18 to 24 inch \$5.00 each.

Norway—A rapid growing erect tree with short dark green needles. Favorite outdoor Christmas tree. 18 to 24 inch \$3.25; 2 to 3 foot \$3.75.

PFITZERS JUNIPER

RETINOSPORA

Filifer (Threadbranch)—Green foliage arranged in dense thread or cord-like branchlets. Semi-dwarf. 12 to 15 inch \$3.00 each.

Filifer Aurea Nana—Dwarf golden form of the above. 12 to 15 inch \$3.50 each.

YEW

All varieties: 15 to 18 inch \$3.50; 18 to 24 inch \$4.50 each.

Irish—Dense green foliage cover the erect columnar evergreen.

Golden Irish—A golden variegated variety of Irish Yew.

English—Dark green foliage, upright growth.

Golden English—Dense golden-tipped foliage on the erect shrub.

GOLDEN IRISH YEW
